

VOLVO V90

CROSS COUNTRY

INNOVATION FOR PEOPLE

Made by Sweden.

At Volvo Cars, we continuously innovate in order to make your life better. Every car, every technology and every design is the result of a clear vision – to put people at the heart of everything we do. It's a vision that has driven us from the start – one informed by Sweden, a country that values people as individuals and where conventions are challenged. It's a culture with a rich design heritage and a unique way of looking at the world.

This vision has inspired us to create the likes of the three-point safety belt and side-impact airbags – inventions that have saved lives and changed automotive history. And with our new generation of cars we continue with this tradition. Scandinavian design combines with modern Swedish luxury to enrich your experience. Intuitive Sensus technology makes life less complicated and keeps you connected with the world, while the latest Drive-E powertrains balance responsive power with impressive efficiency. And supporting you while you are driving, our IntelliSafe innovations make your journey more comfortable and enjoyable while helping to prevent accidents.

We understand what's important to people. It forms the basis of all the innovations which we create – innovations that improve lives.

At Volvo Cars, we design our cars around you.

VOLVO V90 Cross Country

Ever since we came up with the idea of adding go-anywhere capability to the legendary versatility of our wagons, the Volvo Cross Country has been taking drivers further: to the places they want to reach, the things they want to do, the experiences they want to be part of. And, all the while, we do this by keeping them safe, comfortable and in control.

We've been refining the concept for nearly two decades, and now we've arrived here: the new V90 Cross Country. This is the point at which all that experience meets Volvo's new generation of elegantly versatile wagons. The result is a car that combines the best of Scandinavian design and craftsmanship with true all-road capability. This is the car that gets you where you want to go.

GO FURTHER

Your sophisticated adventure awaits.

A car to take on more than the everyday, the V90 Cross Country is a true all-road vehicle. In bad weather, on rough roads and when conditions get tough, you can rely on it.

Elegant and refined, the V90 Cross Country tells the world what it can do and where it can take you. Clean, taut lines and rugged details create a powerful look that conveys a strong sense of capability – with all the practicality of the Volvo wagon built in.

The V90 Cross Country is packed with innovative technology that has one purpose – to make your life easier – and one principle – it must be easy to use. The sophisticated chassis is built to cope with road conditions that would stop lesser vehicles, and to make tackling those conditions easier for you.

No matter what's going on outside, the V90 Cross Country is a sanctuary inside. The spacious, light-filled cabin is made from the finest materials and constructed with the care and attention provided by Swedish craftsmanship. Designed to make every experience an adventure, it is a place where you can relax in comfort, where technology enhances your journey and makes life easier.

*"No matter what's going on outside,
the V90 Cross Country is a sanctuary inside."*

Visible strength. Combining the elegance of our new design language with Cross Country ruggedness has created a car that's sophisticated, tough and practical.

Its large wheels and increased ground clearance give you confidence on any road. The front and rear skid plates blend

seamlessly into the bumper for an elegant and rugged look, and the cladding helps to protect the bodywork. Bold lines, the raked rear window and the LED tail-lights, with their slender vertical shape, are both contemporary and classically Volvo.

DESIGNED FOR CONTROL

Precision and accuracy at every touch.

From the moment you settle into the sculpted driver's seat, you're in control. You sit comfortably in the V90 Cross Country, with the 9-inch centre display with touchscreen angled towards you to create the feeling of a cockpit. You're surrounded by an environment where beautiful materials and advanced technology meet – creating a cabin that looks great and works perfectly. Black Walnut trim, unique to the V90 Cross Country, typifies our approach to materials: modern, restrained and satisfying to touch. The exceptional craftsmanship enhances the feeling of precision. Take the air vents, for example. With a metal-finish vertical strip and distinctive diamond-pattern surfaces for the control knobs, they are beautiful to look at and a pleasure to use. In the V90 Cross Country, every component moves with the accuracy afforded by fine engineering.

It is a car that gives you control over every part of your journey.

LIGHT. SPACE. LUXURY.

Travel first class in every seat, every day. Because when you're in the V90 Cross Country, you're in your own private lounge – a place where comfort and luxury combine with technology and craftsmanship.

It starts with the front seats. Sculpted to complement the human form, they provide superb support and a huge range of adjustment, so everyone can find the ideal seating position. Optional ventilation and massage functions provide even greater comfort.

The shape of the front backrests increases legroom for rear passengers, who also benefit from seats that are designed to cosset and support. Standard four-zone climate control and the option of retractable rear sun blinds add to the sense of luxury.

An optional panoramic glass sunroof floods the entire cabin with light. Tinted to prevent glare, the roof opens to create an even more airy feel, and can be closed remotely using the remote control.

At night the cabin glows with the warmth of its interior lighting, welcoming you into the car. The high-level illumination lighting package includes backlit door handles and illuminated tread plates, as well as additional interior lighting that enhances the exclusive ambience.

Our CleanZone technology helps ensure a healthy interior environment and clean cabin air. It filters dust, pollen, particulates and odours while monitoring the air quality and closing the intakes if pollutant levels rise too high. It happens automatically – all you need to do is set the temperature you want and the car does the rest.

In the V90 Cross Country, technology and convenience go hand in hand.

In the driver's seat you're in charge. Control functions such as navigation and entertainment from the steering wheel buttons, while the 12.3-inch driver display keeps you informed.

Every element of the cabin is crafted to make form and function one. The door handles can be backlit, making them easier to find in the dark.

Beautiful, natural materials such as Black Walnut complement the car's advanced technology, creating a uniquely contemporary look.

VOLVO V90 Cross Country

"The clever design and versatile interior layout make every day easier."

READY FOR EVERY ADVENTURE

A car that fits your life – all of it.

Getting you there is just the start. The V90 Cross Country matches its all-road ability with built-in versatility to create a car that can do more.

The clever design and versatile interior layout make every day easier. The shape of the load compartment makes it easy to fit in awkwardly shaped objects, while as an option the rear seats can fold at the touch of a button to create a longer, completely flat load space. You can do this from inside the load compartment so you don't have to open the rear doors to fold the seats. The through-loading hatch means you can carry long items such as skis without folding the seats.

The power-operated tailgate has a hands-free function, so if your hands are full you don't have to put down what you're carrying to open it. Just move your foot under the rear bumper to open and close the tailgate automatically.

To make your V90 Cross Country even more useful, add extra equipment from our range of load compartment accessories. From dividers that split the load compartment in two so you can carry two pets (or a pet and luggage) to a steel grille that provides a sturdy barrier between load and passenger compartment, there's an accessory for every occasion.

ALL-ROAD CAPABILITY OPENS UP YOUR WORLD.

The V90 Cross Country is a true all-road vehicle, with the technology to take you further. So the limits of your adventure don't have to be defined by the limits of your car.

Our sophisticated, fifth-generation all-wheel-drive system keeps the V90 Cross Country moving when roads get rough or conditions deteriorate. It automatically sends the right amount of power to the wheels that need it the most, so when the road runs out you can keep going. With its increased ground clearance and large wheels, this car has the capability to take you wherever you want to go. Descending steep hills is made straightforward with Hill Descent Control, which carefully applies the brakes to keep the car from moving too quickly or sliding.

You can tailor the way the V90 Cross Country behaves off road by selecting Off-road mode from the Drive Mode menu. It makes the car easier to drive on difficult surfaces such as wet grass, mud and loose gravel by changing the way the engine delivers its power and recalibrating the car's drivetrain so you have more control at slower speeds. On uneven ground, the optional Active chassis with rear air suspension comes into its own, taking bumps and ruts in its stride. When the road becomes a challenge and the weather becomes unpredictable, the V90 Cross Country gets you where you want to go. In comfort.

VOLVO V90 Cross Country

"Sensus connects you with your Volvo and the rest of the world."

SENSUS

*Informed, in control and
always up to date.*

Sensus has a guiding principle: to make your life easier and more enjoyable, whether it's your convenience, entertainment or navigation requirements. Sensus connects you with your Volvo and the rest of the world. It keeps you informed, entertained and in control of your journey.

Intuitive, easy-to-use controls are a prime feature of Sensus, and you will find them on the large, 9-inch centre display with touchscreen. Replacing physical buttons with virtual equivalents on the screen allows them to be larger and easier to use. Bold, clear graphics make it easy to absorb information at a glance. Our philosophy has always been that you should be able to operate your Volvo and keep your eyes on the road. The head-up display means you can do just that while staying connected and informed.

And Sensus goes further, with in-car tethering enabling your devices to connect to the internet, while our audio systems offer considerable flexibility when it comes to choosing your desired music source and tailoring its sound.

The Sensus experience enriches every moment you spend in your Volvo.

CONNECTING YOU WITH A WORLD OF ENTERTAINMENT.

Get closer to the music you love, no matter which seat you're in. With Sensus Connect, all your music is available all the time, whether it's direct from your favoured media source or streaming from the internet.

It all begins with the 9-inch centre display, the control centre for Sensus. The surface responds to the lightest of touches – you only need to brush your fingers over the glass to operate the controls. It even works with gloved hands.

Connecting your devices is quick and easy. With our Smartphone Integration, you simply plug your smartphone into the car using the USB connection and you can turn the centre display into an extension of your iPhone® (5 or later) or Android smartphone

(5.0 Lollipop or later). You can connect via Apple CarPlay™ or Android Auto™ to access your device's music, make calls and send messages. And when connected, your phone will be charging, too.

Your choice of entertainment is not limited by what you have on your smartphone or portable audio player. Tethered internet increases your choice, and you have access to internet radio and on-demand services, as well. The Spotify® in-car app makes finding new music quick and easy. Our standard High Performance audio system is tuned to make the most of your music, while optional Premium Sound by Bowers & Wilkins takes the listening experience to another level.

Our Bowers & Wilkins audio system gives every occupant a superb audio experience, no matter which seat they are sitting in. Developed with Bowers & Wilkins, creators of high-end audio, this innovative technology brings exceptional clarity and realism to your favourite music. The unique air-ventilated subwoofer delivers richer, deeper bass by drawing air in from outside the car so it can pulse more air through the speaker. There are 19 speakers,

allowing everyone in the car to get the best possible sound, all the time. And you get closer to the performance by using one of the system's three room modes to bring the music to life. Concert mode recreates the unique acoustic experience of the Gothenburg Concert Hall, while Stage and Studio modes put you at the heart of the music, allowing you to hear it as the musicians intended.

"Turn the centre display into an extension of your smartphone using our Smartphone Integration."

9-inch centre display. The focal point of the elegant cabin is the 9-inch centre display with touchscreen, which uses a portrait format to give you a large viewable area that means less scrolling. This format is suited perfectly to displaying maps, and mirrors the look of modern

smartphones in its layout, so it feels instantly familiar and intuitive. It features a glossy black finish that, thanks to a special coating, minimises reflection – so it not only looks beautiful but works beautifully. This is how technology should be.

GET TO YOUR DESTINATION EVERY TIME, WITH EASE.

Let **Sensus Navigation** be your guide, helping you find your destination and keeping you informed. Everything you need to know is shown on the 12.3-inch driver display right in front of you. The high-resolution image self-adjusts so it's never too bright, automatically resizing the instruments to accommodate navigation information.

The head-up display shows all the vital information on the lower part of the windscreen, projected to look like it is hovering in front of the car. It means you stay informed without ever having to take your eyes off the road.

Voice control. Controlling Sensus is as easy as telling it what to do. Talk to your Volvo, using natural phrases such as "go to Bondi Beach" or "call Emily Johnston", and voice control will carry out your instructions to operate climate control, navigation, infotainment and your smartphone.

Getting to your destination is made even easier with the clear graphics of our maps. And, because we give you free lifetime mapping upgrades, Sensus stays one step ahead, guiding you accurately.

Sensus also saves time by helping you find what you're looking for, with built-in navigation apps capable of locating parking and petrol stations.

With Sensus taking care of the way ahead, your journey will be even more enjoyable.

Centre display. The portrait-format centre display with touchscreen makes reading maps and following navigation prompts beautifully straightforward. Maps appear as they would in an atlas and they scroll less, so you can see where you're going and what's coming next. Its clarity, size and orientation make it the ideal companion for every journey.

VOLVO V90 Cross Country

INTELLISAFE

Always looking out for you.

IntelliSafe is our name for the intuitive, intelligent Volvo Cars technologies that support your driving, help to prevent accidents and protect you in a collision. These innovations play a key role in helping us to realise our bold vision that, by 2020, no-one will be killed or seriously injured in a new Volvo car.

City Safety is at the heart of IntelliSafe. Fitted as standard, it's like a co-pilot that's looking out for you, detecting danger ahead then warning you and intervening if necessary. City Safety identifies other vehicles, pedestrians, cyclists and large animals ahead of you, even at night. It warns you of any hazards and, if you don't react, it will brake automatically to help avoid or mitigate a collision.

Journeys are more relaxed with IntelliSafe to support you. Pilot Assist adjusts the steering to help you keep the car centred in its lane and at a set speed and distance from the car in front.

Oncoming Lane Mitigation can help avoid collisions with oncoming vehicles. If you drift across the lane markings in the way of an oncoming vehicle, your car steers back. Run-off-road Mitigation steers and, if necessary, brakes to help prevent you leaving the road accidentally. Driver Alert Control recognises if you're tired or distracted and suggests that it's time to take a break, while Road Sign Information reminds you of the speed limit.

And BLIS™ (blind spot information) with Steer Assist creates increased awareness and confidence on the highway, alerting you to vehicles alongside you. If you don't react to the warning and start to drift into the path of another vehicle, the Steer Assist function will guide you gently back into your lane.

With safety technology that's as advanced as this, your Volvo can help make every day safer – for you, your passengers and everybody.

The power to protect. Hidden behind the striking front end lies an array of safety technology that helps to make driving safer and easier.

VOLVO V90 Cross Country

With Oncoming Lane Mitigation your Volvo helps reduce the risk of colliding with an oncoming vehicle. Working at speeds between 60km/h and 140km/h, it automatically helps you steer back into your lane if it detects you have crossed the lane markings and into the path of an oncoming vehicle.

With Pilot Assist, your Volvo makes your journey easier and more relaxing. Pilot Assist helps keep your Volvo at a set speed or a set distance from other vehicles and, at speeds of up to 130km/h, it helps keep the car in the centre of the lane by making small adjustments to the steering.

Cross Traffic Alert helps you to reverse out of a space knowing there are no vehicles about to collide with you. This technology can spot vehicles approaching from either side of your Volvo at up to 30 metres. In some circumstances, it can also detect approaching cyclists and pedestrians.

D5 AWD | Cross Country
714 Osmium Grey metallic | 20" 10-spoke
Black Diamond Cut alloy wheels, 226

Perfect parking, every time. Park Assist Pilot is like having someone park your car for you. It tells you if a parking spot is the right size for your Volvo and then takes over the steering to slot it in. It requires a space just 1.2 times the length of your Volvo, so it can tackle even the tightest of spaces. Engage a gear, accelerate and brake according to the screen prompts, and your Volvo will take over the steering completely to manoeuvre your car into the space. If you want to park the car yourself, the 360° camera will help you fit into the space with confidence.

VOLVO V90 Cross Country

PROTECTING WHAT'S MOST IMPORTANT.

Protecting you and your passengers has always been our priority at Volvo Cars, and our latest generation of cars does more than ever to keep you safe. From preventive technology that helps you avoid collisions to protective features that cushion the impact of any collision, we will never stop innovating in order to improve your safety.

Your Volvo surrounds you with protective safety. The foundation for our new generation of cars is a very strong passenger compartment that uses a high percentage of ultra-high-strength (boron) steel to create a protective cage around you and your passengers.

Volvo Cars gave the world the three-point safety belt in 1959, and our latest developments continue this commitment

to life-saving inventions. Should your car leave the road, Run-off Road Protection technology reduces your chances of suffering serious injury. Prepared front safety belts tighten automatically when the car senses that an impact is imminent, ensuring you and your passenger are in the safest position if a collision occurs. If the car leaves the ground as a result of running off the road, our unique energy-absorbing seats help to protect your spine in the event of a hard landing.

It's this range of safety technologies and attention to detail that makes your Volvo a safe place to be.

The sculpted front seats in the V90 Cross Country are more than just beautiful to look at. Their unique structure helps to absorb vertical impacts, helping to protect your spine if the car lands heavily after leaving the road. It's another example of how we make every part of a Volvo work harder for your safety.

Volvo is synonymous with road safety. We put our first safety cage into production in 1944, and created the three-point safety belt back in 1959. And we're still innovating today. Prepared front safety belts tighten automatically if the car detects that a collision is likely, to ensure you're in the safest position should one occur.

DRIVE-E

Enjoying more, using less.

With the perfect balance between performance and efficiency, every Volvo engine gives you on-demand power with low fuel consumption. We achieve this with Drive-E, the cutting-edge technology behind every one of our advanced engines, where performance and efficiency are inherent qualities.

It's our innovative culture that enables us to create such engines. The D5 diesel powertrain that powers the V90 Cross Country features PowerPulse, a Volvo Cars world-first. It activates the turbocharger as soon as you press the throttle pedal to give an instant boost of acceleration from standstill and at lower speeds. Technology such as this enables us to offer the power of a much larger engine from a compact four-cylinder, so you get the perfect mix of power and efficiency.

Smaller engines lose less energy through friction so they can make every drop of fuel work harder to minimise emissions. We've used low-friction components to make them run smoother and more efficiently. Reducing size and weight has freed up interior space and improved the car's handling.

Our eight-speed Geartronic™ automatic gearbox make the most of each engine's potential. Designed to minimise power loss and maximise performance, Geartronic™ will always select the right gear for whatever is coming next, or you can choose to change gear yourself in manual mode.

To help you drive more efficiently, select Eco mode and the V90 Cross Country recalibrates the drivetrain for the lowest possible fuel consumption and emissions. The coast function disconnects the engine from the automatic transmission when you release the accelerator at speeds above 65km/h so it isn't being used to slow the car.

Our diesels are quiet and smooth for a relaxing journey, thanks to ground-breaking i-ART injection technology. By precisely metering the right amount of fuel for each cylinder, i-ART helps the engine run more smoothly while using less fuel. And the technology ensures it stays that way for the car's lifetime. You will always benefit from low fuel consumption.

At Volvo Cars, by looking to the future we enhance your life today. Drive-E brings together advanced technologies to give you efficiency, performance and range – and a better drive for you.

"Balancing performance and efficiency, every Volvo powertrain gives you on-demand power with low fuel consumption and emissions."

DRIVEN TO PERFECTION.

We designed the V90 Cross Country from the ground up for all-road capability and on-road precision. That's why the sophisticated suspension gives you the best of both worlds: accuracy and precision when you want it, with the technology to keep you moving when conditions are bad.

Double-wishbone front suspension works in harmony with integral axle rear suspension to give you precise control over the car. Our optional Active chassis with rear air suspension compensates for loads, while adapting to the road and driving conditions for an even better ride. Advanced driver aids such as Electronic Stability Control and Understeer Control Logic keep the V90 Cross Country stable, contributing to the way it handles corners. The Cross Country suspension and larger wheels create additional ground clearance, and all-wheel drive gives you the edge on demanding roads and in challenging conditions.

Choose between four drive modes that allow you to tailor the car's behaviour to your mood and find the perfect setting for the road you're on. Select Off-road mode, and Hill Descent Control is automatically turned on, helping you negotiate steep downward slopes. Altering the engine, gearbox, accelerator and steering response changes the way the car behaves and – with the optional Active chassis with rear air suspension – how it rides and handles.

And when you come to a stop, the V90 Cross Country helps you to get going again. Hill Start Assist makes pulling away on an incline effortless by holding the car on the brake until you press the accelerator. Auto Hold keeps the brakes on after you've released the pedal, so you can let the car do all the work in stationary traffic.

Discover superior comfort and handling created by optional rear air suspension. It absorbs poor road surfaces and keeps the ride height constant so the car responds as desired. Optional Active chassis technology also allows you to customise the way the V90 Cross Country rides and handles.

VOLVO V90 Cross Country

D5AWD | Cross Country

714 Osmium Grey metallic | 20" 10-spoke
Black Diamond Cut alloy wheels, 226

YOUR JOURNEY BEGINS HERE.

We created the V90 Cross Country with one single purpose: to provide you with a car that perfectly fits you and your adventures. It's a car that meets your expectations of a dynamic drive with refined comfort and sophisticated design – built with care for people and the world we share. It's a car that's intuitive to use and makes life less complicated, and a pleasure to live with every day.

At the heart of your V90 Cross Country is a dynamic, efficient powertrain from our Drive-E family. It features technology that gives you instant response and great driveability, while fuel consumption

and CO₂ emissions are kept low. Our Drive-E powertrains already comply with future exhaust emission legislation.

The V90 Cross Country's advanced and powerful D5 twin-turbocharged diesel engine is mated to our smooth and intuitive eight-speed Geartronic™ automatic gearbox, allowing you to experience performance without compromises. Our responsive AWD (all-wheel-drive) technology with Instant Traction™ gives you an edge by increasing driving stability and traction – on all road surfaces and in all weathers.

A HIGHER GRADE OF REFINEMENT.

We created the exclusive V90 Cross Country to meet your highest expectations of Scandinavian refinement and intuitive technology. Each detail is carefully selected to give you and your passengers a sophisticated and invigorating experience on the road, whatever your adventure. Distinctive 20-inch wheels enhance the elegant yet powerful look of the V90 Cross Country, while the meticulously

crafted interior gives you ample room for a relaxed driving experience. The V90 Cross Country epitomises our proud heritage of human-centric design. When it comes to intelligent refinement imbued with distinctive style and fresh thinking, the V90 Cross Country is in a class of its own – just like you.

D5 AWD | Cross Country

714 Osmium Grey metallic | 20" 10-spoke Black Diamond Cut alloy wheels, 226

1

The V90 Cross Country means refined luxury, featuring all the technology, comfort and versatility you need for sophisticated adventures. The distinct 20-inch 10-spoke Black Diamond Cut wheels harmonise perfectly with the high-gloss black exterior details and the integrated bright roof rails. Together with the elegant dual integrated tailpipes, the wheels also contribute to the car's confident stance.

Every time you open the door, the metal tread plates provide an illuminated welcome. The luxurious theme continues with authentic, finely crafted materials that create a lounge-like atmosphere of sumptuous well-being. You and your passengers can lean back in sculpted power-operated Comfort seats with exclusive Fine Nappa Leather upholstery. Unique Black Walnut genuine wooden decor inlays, textile floor mats and our most advanced ambience interior illumination add to the rewarding V90 Cross Country experience.

For you as driver, the large, intuitive 12.3-inch driver display with four graphic modes and convenient drive mode and steering settings in the console between the front seats add to your feeling

of being in command. And to enhance your driving experience, our optional Active chassis with rear air suspension optimises comfort and handling. You can select between four different chassis settings with the drive mode control.

To ensure a high level of comfort for all occupants, the standard four-zone climate control allows the driver, front seat passenger and outer rear seat passengers to set their individual cabin temperature. The front seats can be complemented with optional ventilation and massage functions. By adding an optional panoramic roof, everyone inside your V90 Cross Country will enjoy a superb experience of air and light. The front section can be opened at a push of button, and during sunny days a power-operated sunshade in perforated textile will reduce the heat and glare while maintaining the airy feel inside the cabin.

And turning your V90 Cross Country into a concert hall, our optional high-end Bowers & Wilkins audio system brings exceptional clarity and realism to your music, wherever you're seated.

1. V90 Cross Country with 20-inch Black Diamond Cut alloy wheels. **2.** The power-operated Comfort seats with Fine Nappa Leather upholstery together with unique Black Walnut genuine wood decor inlays add to the sensory experience of contemporary luxury. **3.** The intuitive 12.3-inch driver display with four graphic modes and the 9-inch centre display with touchscreen put you in the centre of the action. **4.** Our optional Bowers & Wilkins™ audio system with 19 high-end speakers is created to deliver the most realistic, immersive sound possible. **5.** Select your preferred drive mode and steering characteristics with the scroll wheel in diamond-patterned metal finish. **6.** The exclusive leather-clad remote control is in the same colour as the Leather upholstery in your V90 Cross Country – an excellent example of thoughtful Scandinavian craftsmanship and clean design.

Exterior styling accessories. The side scuff plates in brushed stainless-steel and dual split tail-pipes perfectly complement the adventurous appearance of your V90 Cross Country. Adding attitude beyond the ordinary, the powerful, large 21-inch Matt Tech Black alloy wheels in expressive seven-open-spoke Diamond Cut design further enhance the car's rugged looks.

GET MORE FROM LIFE.

Add to the inherent practicality of the V90 Cross Country with our range of exterior accessories, which are designed to look good and work flawlessly. Made from tough, high-quality materials, they're built to withstand the punishment inflicted by a Swedish winter.

Take advantage of our range of roof-mounted accessories by adding our low-profile load carriers. Easy to fit onto the car's roof rails, they instantly allow you to fit our load carrier accessories, from the ski rack to the canoe and kayak holder.

Our lightweight, stylish roof box fits straight onto the load carriers, adding 350 litres to the carrying capacity. Ideally suited to

carrying skis (and capable of carrying up to six pairs), its quick-grip mountings allow you to fit the roof box easily and conveniently. LED lighting in the lid is another neat touch that helps you load in the dark.

The bumper cover protects the paintwork from damage caused by loading objects into the load compartment. Made from stainless steel with a high-gloss finish, the cover not only works effectively but looks great.

Your Volvo Cars dealer can also offer a wide range of alloy-wheel designs.

Make your life easier with accessories that extend the built-in versatility of the V90 Cross Country and protect the car's interior.

A steel grille provides a sturdy barrier between the load and passenger compartments. The load compartment divider splits the boot in two so you can carry a pet and luggage, and a dog gate creates a secure compartment to keep pets safe.

Keep the interior of your V90 Cross Country immaculate with our load compartment covers, including a tough plastic mat, a dirt cover that protects the entire load compartment (and folds out to protect the bumper too), and a reversible, foldable mat with fabric on one side and plastic on the other. An illuminated tailgate scuff plate covers the load sill.

The electrically folding tow bar gives you the ability to tow, and folds discreetly away when not in use. Press a button inside the load compartment and the tow bar folds out – all you have to do is lock it into position with one click. If the tow bar is not locked in position or if any of the lights on the trailer cease to function, you'll be alerted in the car's driver display.

A set of Volvo-designed mud flaps deflects road grime and dirt from the car's bodywork and reduces the effects of spray on following traffic. Made from soft plastic, they are tough enough to withstand everyday use and flexible enough to bend but not break.

1. Media Server and iPad® holder, rear seat.

Create a V90 Cross Country that complements your life. Our Media Server allows passengers to enjoy large amounts of stored entertainment content via their mobile devices, especially comfortable combined with our sleek iPad® holder. And by adding a Media Player, they can enjoy movies, music and photos stored on a USB memory, SD card or DVD.

The remote control can be personalised to contrast your car's interior trim with different exterior casings.

Our new child seats combine comfort with state of the art safety and are designed to fit perfectly into your Volvo. Made

from Wooltextile cloth, which is 80 per cent wool, they're durable and tough but also soft and breathable, so your children stay comfortable and safe.

Our exclusive booster cushion in genuine Leather and soft Nubuck Textile with adjustable backrest allows a child to travel in comfort safely restrained by the car's seatbelt. We apply the same stringent standards to our child seats as we do to building our cars, so you know your children are well protected.

SERVICE BY VOLVO. A SIMPLER WAY.

When you buy a Volvo, you buy the simplest way to own a car. No matter what your car may need, your authorised Volvo workshop will take care of it for you and make sure your Volvo stays in tip-top shape.

We have our own approach to service that's personal and efficient – and which takes care of you as well as it takes care of your car. We call it Service by Volvo, and it will provide everything you need in the simplest way possible.

Your Volvo Cars dealer offers a whole range of simplifying services all designed around you, ensuring you a carefree ownership experience. Still, this is just the beginning. Soon, you will also get a Personal Service Technician, and your car will be ready within the hour so you can relax in our lounge instead of driving back and forth. It's because everything we do is about finding new ways to make life simpler for people, with our cars as well as our service.

MAINTENANCE SERVICE

When you bring your Volvo in for maintenance service at the authorised Volvo Car workshop, a lot of extras are included to make your visit more convenient and rewarding. We update your car's software to the latest version, which means your Volvo can become a little bit better at every service. We extend your Volvo Assistance for another 12 months so that you'll be assured to get quick help around the clock should anything happen. We perform a complimentary health check on your car, offer alternative transportation if you need it while your car is being serviced, and we will also wash your Volvo for you.

SMARTCARE

You can choose from one of our comprehensive service plans and drive easy knowing that your Volvo will receive the best care and attention under our SmartCare programme. Simply purchase a service plan prior to your first scheduled service and enjoy the peace of mind of knowing you are covered for up to five years or 75,000km (whichever occurs first) of scheduled services on your new Volvo.

Welcome to Volvo Car Lifestyle Collection. Our Lifestyle Collection includes a wide range of lifestyle accessories – from Swedish crystal and crafted leather bags, to clothing, watches and more selected items. To view the complete collection, please visit collection.volvocars.com
