Drive your Ambition

BUILT FOR ESCAPE

Combining style, luxury, cutting-edge technology and genuine four-wheel drive performance, the sleek Pajero Sport fuses elegance, space and safety for urban driving with agility for off-road excitement. Read on. You'll have the confidence to go anywhere your heart desires in the Pajero Sport.

PAJERO SPORT, BUILT FOR THE TIME OF YOUR LIFE

Since 1917 Mitsubishi Motors has been at the forefront of technological innovation, having launched the innovative Super-Select 4WD system and the world's first Plug-in hybrid electric SUV our vehicles have been tested and triumphed in some of the most gruelling and toughest terrain on earth including the Dakar rally. These engineering milestones and our commitment to reliability and ingenuity set us apart from the competition. As we continue to move forward, pushing the boundaries of innovation, you can rest assured your Mitsubishi has been built for the time of your life.

Pajero Sport, is part of the all-thrilling, ever reliable Mitsubishi SUV range.

TO BE ACTIVE, YOU NEED PLENTY OF ROOM

A busy, energetic lifestyle is not something you can confine. Pajero Sport gives you all the interior space you need to take you comfortably to the wide, open spaces that beckon. Yet all the while you'll be in touch with leading edge technology that keeps you connected.

+ Pajero Sport's innovative Smartphone Link Display Audio (SDA)¹ is a true extension of your smartphone via Android AutoTM or Apple CarPlay². Connected to a 7" touchscreen, you can access your phone's compatible apps and get directions, make calls, send and receive messages and listen to music from any source including DAB radio. With a smart phone storage tray and multiple USB/HDMI connectors in the centre console, everything is taken care of. To ensure safety while you drive, the primary call and music streaming functions can be controlled by voice command or by steering wheel controls, so your eyes stay focused on the road ahead.

- + Tilt and telescopic steering lets you find your optimum driving position while the premium leather four-spoke steering wheel features paddle shifts and phone, audio and Adaptive Cruise Control switches. Multi Around Monitor camera switches are also on hand in Exceed models.*
- + Premium, dual density cushioned seats ensure a comfortable ride while the Exceed's soft leather seat facings and heated, power front seats provide that extra piece of indulgence.*
- + Automatic dual zone climate control for the driver and front passenger# and rear air vents with cooler add to your driving comfort.

- + Smart Key lets you lock and unlock doors, and even start the engine with the touch of a button, all while your Smart Key is tucked safely in your bag or pocket.
- + The roomy interior gives your family members generous head and legroom as well as plenty of in-cabin storage space for nearly anything you want to bring along for the ride. The second row seats can be generously reclined for a more relaxed ride or tumbled forward. In 7 seat models the third row seats comfortably sit an extra two people or can also be easily folded forward to create a wide flat storage space.
- + The feeling of Pajero Sport is quality with premium finishes like piano black panels and a high centre console. The push button electric park brake and speed sensing automatic door locking also create a feeling of quiet confidence.

- + The Multi-information display keeps you in touch with essential trip information, monitoring outside temperature, driving distance and fuel consumption.
- + Pajero Sport's intuitive technologies take care of the small things so you can focus on your journey ahead. Mitsubishi's Electronic Time Alarm Control System (ETACS) allows customisation of vehicle functions including; finding your car in a dark carpark, lighting your way as you exit the car, conserving battery power if you happen to leave a door open, folding the rear view mirrors in and out before and after driving and even wiping the rear window clean when you engage reverse.

^Smartphone Link Display Audio (SDA) supports Android™ 5.0 or higher/iOS 8.0 or higher for use with Android Auto™ / Apple CarPlay. Smartphone Link Display Audio will not operate in areas with no service signal and may not operate in supported areas where the signal is weak. Users are responsible for all charges incurred using smartphones and iPhones to connect to Android Auto™ and CarPlay respectively. Some functions may not be available for use depending on the user's location. Only compatible Apps can be used. 1. Android™ and Android Auto™ are trademarks of Google Inc. 2. Apple CarPlay and iPhone, are trademarks of Apple Inc., registered in the U.S. and other countries. *Exceed model only. Exceed model shown.

STYLE, PERFORMANCE AND ATTITUDE

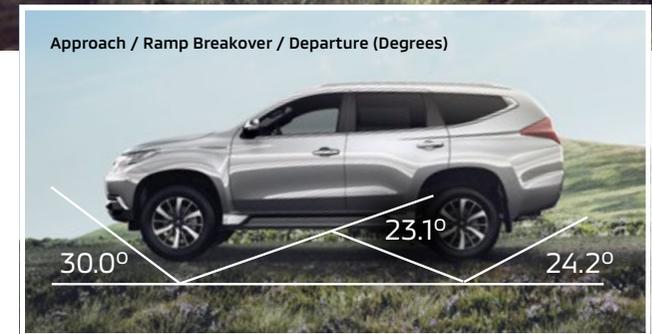

Take one look at Pajero Sport's contemporary face and you'll know there's performance in store.

- + The tube style LED Daytime Running Lamps (DRL)[#] signal Pajero Sport's arrival. Even the distinctive vertical rear combination lamps make a confident statement.
- + Twin-spoke 18" alloy wheels set Pajero Sport perfectly on the road. The built in roof rails show it means business, while the improved aerodynamics provide directional stability at higher speeds as well as reduced fuel consumption.
- + The aerodynamic front end design also decreases water splash on the windshield when going through water, helping to keep your field of view clear so you can see what's ahead.

- + The GLS and Exceed models are also equipped with front wipers that activate automatically when moisture is detected on the windscreen, allowing you to keep your hands on the wheel and your focus on the road ahead.[#]
- + Dusk sensing headlamps on the GLS and Exceed models automatically illuminate in fading light or when travelling through a tunnel.[#]

ALL THE POWER YOU NEED, PERFECTLY DISTRIBUTED

At its core Pajero Sport has a responsive 2.4L MIVEC Turbo Diesel Engine but it's the pairing with the 8-speed automatic transmission that provides the optimum balance of engine power, fuel economy and interior quietness.

+ The 2.4L DOHC MIVEC 16 valve common rail intercooled diesel engine is super responsive. An aluminium cylinder block and lightweight materials reduce weight and with a compression ratio of 15.5:1, it is amongst the quietest and most efficient diesel engines on the market. Like a great athlete, it will exceed your expectations. Peak power is 133kW at 3500rpm, while torque is an impressive 430Nm at 2500rpm.

+ The 8-speed automatic transmission's wide range of gear ratios provide smooth acceleration and also low rpm high speed cruising to enhance driving efficiency.

+ An 11.9m turning circle means excellent manoeuvrability and easy handling, requiring fewer lock-to-lock turns, making parking and negotiating tight spaces easy.

+ Towing your boat, caravan or trailer is a breeze with Pajero Sport's 3.1 tonne towing capacity.

+ Pajero Sport's double wish-bone with coil spring and stabiliser bar front, and 3-link coil spring with stabiliser bar rear suspension makes for a smooth, comfortable and confident ride.

Think of any terrain and you'll know that, true to its heritage, Pajero Sport can go there.

+ Hill Descent Control (HDC) can be initiated when you start travelling down a steep gradient more than 5% and can be set at any speed between 2 – 20km/h. Adjusting engine output and automatically applying the brakes to maintain the set speed, it allows you to concentrate on steering without having to manually apply the brakes.

+ Hill Start Assist (HSA) prevents your Pajero Sport from rolling backwards on hills by maintaining the braking force for a few seconds to give you time to move your foot from the brake to the accelerator.

+ Mitsubishi's Super Select II 4WD system delivers performance in the most challenging driving conditions and rugged terrains. This advanced technology provides four driving modes: 2WD High Range, Full Time 4WD and 4WD High and Low Range with locked centre differential. An easy-to-operate four-wheel-drive selector dial allows switching between 2WD and 4WD on the move at speeds under 100km/h.*

+ In addition, the selectable Off Road Mode maximises traction on unsealed surfaces. The Gravel, Mud/Snow, Sand or Rock setting can be selected to suit surface conditions and optimises engine output, transmission settings and braking, for superior traction.

2H (2WD High Range)
For normal road conditions.*

4H (Full Time 4WD)
For rough roads and hazardous conditions.*

4HLC (4WD High Range with locked centre differential)
For rugged terrain with low-grip surfaces.*

4LLC (4WD Low Range with locked centre differential)
For steep hills, sand, deep snow, etc.*

GUIDE. PROTECT. CONNECT.

MiTEC

Mitsubishi Motors Intuitive Technology or MiTEC, is an integrated system[^] of brilliant innovations in action, working in unison to guide and protect, alert and connect, even entertain. It thinks like you, reacts like you, before you even know it. MiTEC delivers unsurpassed safety and next generation features to the modern-day driver.

These significant safety features coupled with Mitsubishi's Reinforced Impact Safety Evolution (RISE) body have earned Pajero Sport the maximum ANCAP safety rating of 5 stars so you can rest assured you're driving one of the safest cars on the road.

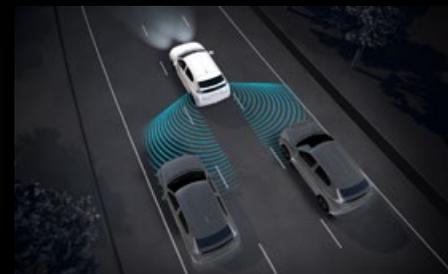

TESTED
2015 ★ ★ ★ ★ ★

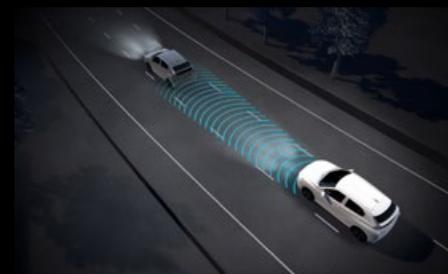

Forward Collision Mitigation¹

Mitsubishi's Forward Collision Mitigation system detects obstructions ahead and issues a visual and audio alert when there is a danger of collision, automatically applying the brakes to avoid collision or reduce impact.

Blind Spot Warning System^{*2}

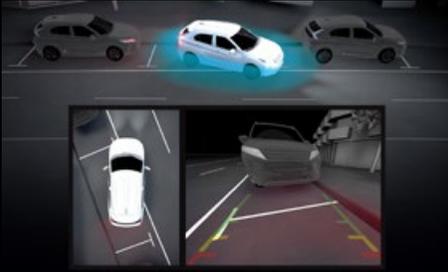

Change lanes with confidence with the Blind Spot Warning System. Ultrasonic sensors detect when cars are in your rear blind spots and you are alerted by a warning light in your side mirror and tachometer. If you indicate on the side the vehicle has been detected, the light will start blinking and you will be further alerted by a warning sound.

Adaptive Cruise Control³

Mitsubishi's Adaptive Cruise Control uses radar technology to detect to detect any cars in the lane ahead and adjusts the speed of your car accordingly while maintaining a safe distance set by you.

[^]Please drive safely and never rely solely on these systems while driving. Drivers are fully responsible for their own safe driving.^{*}Exceed models only. 1. The detection and control capabilities of FCM are supplementary only and do not prevent collisions in every situation. Please read the operation manual carefully and be aware of these limitations. 2. The detection and control capabilities of BSW are supplementary only and do not warn you of vehicles in blind spot every situation. 3. ACC may not activate in some situations depending on the vehicle in front and its conditions, weather and road conditions. This system may be unable to decelerate sufficiently if the vehicle in front brakes suddenly or another vehicle cuts into your path. Please see the user manual for more information.

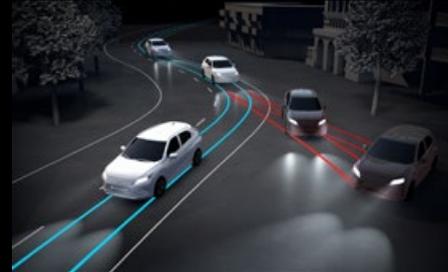

Multi Around Monitor*

Mitsubishi's Multi Around Monitor provides a 360° birds-eye view of your car. The view from cameras mounted on the front, rear and sides of the vehicle (including birds-eye view) can be displayed in various combinations to reveal what is in blind spots and help you park more safely.

Ultrasonic misacceleration Mitigation System*4

Mitsubishi's Ultrasonic misacceleration Mitigation System reduces the chance and severity of hitting obstacles 4m in front or behind when a driver mistakenly presses the accelerator when stationary or at speeds up to 10km/h.

Active Stability Control

Mitsubishi's Active Stability Control intuitively recognises when you over-steer or under-steer and applies the brake force to appropriate wheels to keep you stable through corners.

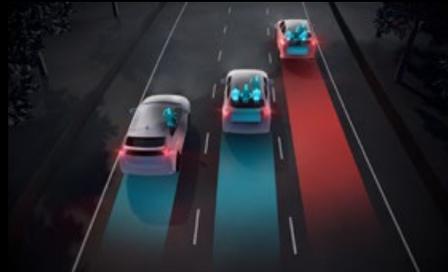

Active Traction Control

Mitsubishi's Active Traction Control helps maintain traction on most slippery or rugged surfaces. Active Traction Control automatically controls the engine output – so driving wheels are prevented from spinning. Sensing loss of traction in independent wheels it then applies braking force to that particular wheel and sends extra power and torque to other wheels with traction, to keep the vehicle moving and in control.

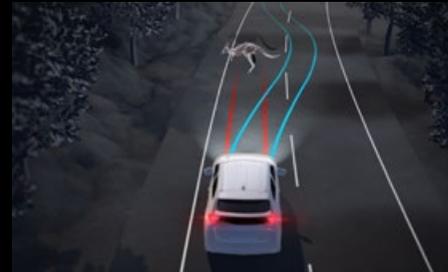

Hill Start Assist

Steep city streets or congested shopping mall ramps are no longer a problem with Mitsubishi's Hill Start Assist technology. It prevents the car from rolling backwards by maintaining braking force to give you time to move your foot from brake to accelerator.

Electronic Brakeforce Distribution

Mitsubishi's Electronic Brakeforce Distribution works hand-in-hand with your car's Anti-lock Braking System computer to assess load and distribute braking force between the front and rear wheels. When you have a load in the rear, it helps you stop in a shorter distance than standard brakes.

Anti-lock Braking System

Mitsubishi's Anti-lock Braking System allows the driver to maintain steering control of the vehicle and manoeuvre around obstructions in heavy braking situations.

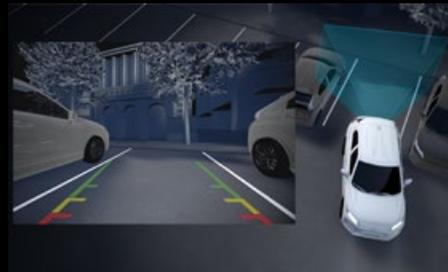

Auto Dusk Sensing Headlamps*

Mitsubishi's Dusk Sensing Headlamps automatically illuminate in fading light or when travelling through a tunnel, allowing you to keep your hands on the wheel and your focus on the road ahead.

Auto Rain Sensing Wipers*

Mitsubishi's Rain Sensing Wipers activate automatically when moisture is detected on the windscreen, allowing you to keep your hands on the wheel and your focus on the road ahead.

Reverse Camera & Parking Sensors

Mitsubishi's Reverse Camera and Parking sensors assist when parking in tight spots. Sensors detect and warn you if you're getting too close to objects behind you when reversing into a parking space.

Hill Descent Control

Mitsubishi's Hill Descent Control enables you to maintain a constant speed by controlling brake pressure according to the condition of the ground when going down a steep gradient at speeds between 2km/h and 20km/h.

Trailer Stability Assist

To prevent 'trailer-swing' when towing at speed. Trailer Stability Assist controls individual wheel slip to stabilise the trailer. The system detects when the trailer is starting to oscillate and automatically warns drivers behind by flashing brake lights on both the car and trailer.
